Public Parking Lot Closure Along National Route 134

A statement from the Mayor of Fujisawa, SUZUKI Tsuneo.

In view of road traffic congestion in the Shonan seaside area last weekend, during the time that the declaration of a state of emergency is being issued, the City decided to close public parking lots for which the City issued management permission along the National Route 134 from April 16 until May6, 2020. In addition to above mentioned parking lots, the prefectural parking lots in Fujisawa are also closed.

One of the most important preventive measures against the spreading of novel coronavirus contagion is to lessen the chance of contact with other people. I sincerely hope everybody who is planning to visit Fujisawa and also the citizens of Fujisawa to understand the significance of this measure. Please refrain from going out during this challenging time.

I look forward to your visit to Fujisawa when the novel coronavirus epidemic is stamped out.

SUZUKI Tsuneo

Mayor of Fujisawa
